

# Robin Schulz, SPEECHLESS (FEAT. ERIKA SIR

I remember how it all started  
feeling warm though the summer was over  
and our little lives  
they felt so big then  
we're only reaching stars  
and I am a big black star  
and you said to me

if you love me  
then say you love me  
and you are mine  
hey come on darling  
stop the hiding  
speak your mind

I loved you  
but you left me speechless then  
say if you love me  
then say you love me  
and you are mine

I remember how it all started  
feeling warm though the summer was over  
and our little lives  
they felt so big then  
we're only reaching stars

hey come on darling  
stop the hiding  
speak your mind

I loved you  
but you left me speechless then  
say if you love me  
then say you love me  
and you are mine

you left me SPEECHLESS
