

Robin Williams, The Batty Rap

Yo, the name is Batty
The logic is erratic,
Potato in a jacket,
Toys in the attic,
I rock and I ramble,
My brain is scrambled,
Rap like an animal but I'm a mammal

I been brain-fried, electrified, infected and injectified,
Vivosectified and fed pesticides,
My face is all cut up
My radar's all shut up
Nurse I need a check-up from the neck up,
I'm Batty

It seems to have no effect doctor

They used and abused me,
Battered and bruised me,
Red wires green wires stuck em' right through me,
So hear my Batty word,
And excercise a little prudence,
When dealing with humans,

people talking

Phone call Mr Darwin
All the graduate students please move closer..
scapel, more nitrous oxide
The eye makeup when inserted rectly seems to have some effect
Remove the brain cap
You notice by dipping the bat in a series of pain..
After a 6 hundred packs of cigeretts
The animal seems to exhibit some..
I said orally
OMG I'm reading by my genitals
Insert the electro.. we're losing him
Seems to have no effect doctor
Wait, get me another one.. get me another animal!
Look professor they dance up and down just like elvis
Fine, strap him down, if he moves medicate him,
Medicate him, medicate me!
Seems to have no effect doctor
Thank you nurse,
Why don't you ever call me?

people talking

Doesn't seem like animals comprehend any pain,
They just get used to it!

Cause I'm a real fruit bat and I'm ready to rap,
I'm ready to snap,
I suffer from sciatica and chapped lips,
And jock itch,
Like a rocket in my pocket and a need to scratch,
But now I can't stop it,
I'm Batty...

I'm a real fruit bat and my logic is erratic,
I'm Batty...
Its my batty rap
Shave his head its just and animal!
My batty rap..
If you just take a little off the sides
Who's Batty? Moi
