

Robyn Hitchcock, Mellow Together

Let's get really mellow together baby
Hold me like you never done before
Let's get really mellow together baby
And climb the highest plateau of our love

Oh you boring little creep
Don't say that this ain't love
I'd know it in my sleep
It swept down from above
It snatched me in its claws
And flew up in the air

Let's get really mellow together baby
Hold me like you never done before
Let's get really mellow together baby
And climb the highest plateau of our love

Oh you dismal little twerp
Don't say that you don't care
Don't tell me it won't work
I feel it in the air
Like a dying tree
It blows up in the wind

Let's get really mellow together baby
Hold me like you never done before
Let's get really mellow together baby
And climb the highest plateau of our love
Let's get really mellow together baby
