

Rochelle, PRAYING FOR AN ANGEL

Chorus:

I've been praying for an angel
To come down from the skies above
I've been praying for an angel
To come and fill my world with love

Everytime that I fall in love
I'm so afraid that love will never last
'Cause I've been hurt many times before
And I don't wanna relive the past
I suffered so much pain inside
Reaching out to love that will never be mine
Now it's time to break these chains I feel
And share a love that's real

Chorus

There's so much love that I want to give
I know that holding back is wrong to do
Now I walk with faith to carry on
'Till I find someone that's true
The old is gone and the new has come
My love I know has finally begun
I face the fact that I must be strong
To wait for the right one to come along

Chorus

I fall down on my knees
And ask for love that will never end
Love that will never end
I've been praying for an angel
So I won't be the same again

Repeat (1x
