

# Rock 'N' Roll Worship Circus, Loving You

There was a time when there was nothing I could do  
So incomplete and yet complete inside of You  
Because I was made for loving You  
I was made for loving

With such a beauty now my mind cannot erase  
A simple look and I can only run Your way  
Because I was made for loving You  
Yes I was made for loving

And when I danced with You I finally found my place  
It's so extraordinary in a normal way  
Because I was made for loving You  
I was made for loving

There is no part of me Your eyes will escape  
Through the night until the shadows drift away  
Because I was made for loving You  
I was made for loving

In just one moment I have found my way  
It's so extraordinary in a normal way  
Because I was made for loving You  
Yes I was made for loving  
I was made for loving You  
I was made for loving
