

Rock Star Supernova, Make No Mistake...This Is

We gotta call the doctor
I'm as sick as can be
Put my finger in the socket
Shocked the hell out of me

Got me dizzy from the drama
That is filling the air
I'm turning into nothing
I really don't care

When the lights are going out
It's all I can take

There's just something in the sound
Of an empty space

Feeling, watching, saying something
Creeping, touching, give me
Nothing

When the lights are going out
It's all I can take
There's just something in the sound
Of an empty space
