

Rockapella, Blah Blah Blah

It started out real sweet, (ooh, real)
I worshipped at your feet, (at your feet)
Swore that you had hung the moon. (swore that you hung the moon)

But after we'd begun, (after we'd be)
I wasn't having fun, (wasn't no fun)
I fear we may have peaked too soon. (baby, we're too)

Why you wanna go and do me like you do? (do like you, do like you)
Why you wanna beat me blue? (ahh, do like you)

When you talk all I hear is "blah blah blah", ("blah blah", talkin' "blah bl
Baby you got nothin' to say, ("blah blah", baby you got nothin' to say)
You're makin' sound good and loud now, I can't make it out, (ooh, I can't make it)
Your lips are workin' fine, but when you talk, "blah blah";.

I hear you talkin', you say "blah blah blah blah";
I hear you talkin', you say "blah blah blah blah";

My hopes were ridin' high (giddy up)
I ain't a picky guy (easy to please)
And you appeared to be a dream (must be a new day 'cause)

Unhappily instead (oh no)
You pounded on my head (huh)
You certainly ain't what you seem (somethin' ain't right)

Why you wanna go and do me like you do (do like you, do like you)
Why you wanna beat me blue (ahh, do like you)

When you talk all I hear is "blah blah blah"; ("blah blah", talkin' "blah bl
Baby you got nothin' to say ("blah blah", baby you got nothin' to say)
You're makin' sound good and loud now, I can't make it out (ooh, I can't make it)
Your lips are workin' fine, but when you talk, "blah blah";

When you talk all I hear is "blah blah blah"; ("blah blah", talkin' "blah bl
Baby you got nothin' to say ("blah blah", baby you got nothin' to say)
You're makin' sound good and loud now, I can't make it out (ooh, I can't make it)
Your lips are workin' fine, but when you talk

There was a time when all the moons were pink with apricot skies
There was a time when all the world would think we held the reasons why

And still I'm back each day
Perhaps we'll find a way
Maybe we'll see eye to eye (maybe you'll start thinkin' my way)

But then I hear the drone (oh oh)
Of your naggin' monotone (hnnnnn)
I'd rather go out back and die (I'll go out back)

Why you wanna go and do me like you do (do like you, do like you)
Why you wanna beat me blue (ahh, do like you do)

When you talk all I hear is "blah blah blah"; ("blah blah", talkin' "blah bl
Baby you got nothin' to say ("blah blah", baby you got nothin' to say)
You're makin' sound good and loud now, I can't make it out (ooh, I can't make it)
Your lips are workin' fine, but when you talk, "blah blah";

"Blah blah", talkin' "blah blah"
"Blah blah", baby you got nothin' to say
Ooh, I can't make it
"Blah blah", the way you talk

"Blah blah", talkin' "blah blah"
"Blah blah", baby you got nothin' to say
Ooh, I can't make it
"Blah blah", the way you talk
