

Rockapella, For The Love

[<http://www.rockapella.com/rockapella-new/CMS/lyrics/forlove.txt> Official lyrics]

For the better, for the worse
For the better, for the worse
For the better, for the worse

Holed up, got my knees up, tightly curled up, I'm a fetal man
She gave up, said "Your time's up";
And now every little thing I got is gone

Find out how something strange
Belching bile from above
Find out why some things change
For the better, for the worse, for the love

I'm no major thinker, but I'm thinkin' I been had & good
I took hook line and sinker, then you toss me back and half my guts are
gone

Find out how something strange
Hawking hell from above
Find out why some things change
For the better, for the worse, for the love

Find out, is your heart pumping any younger
Will the scar tissue dike up every dam? (dike it good)
Find out, is your cloud coughing any thunder
Will the devil's mouth foam when they carry you home?

Vengeance could be heaven, spittin' venom, I'm a viper man
But lovin' runs my engine, & another love's the best revenge of all

Find out how something strange
Pry the peace from the dove
Find out why some things change
For the better, for the worse
For the better, for the worse
For the better, for the worse, for the love
