

# Rockell, One Kiss

baby i think about you all the time  
morning, noon, and night  
maybe ill take you to my bedroom  
and then ill turn out the light  
i know that we've been down this road before  
but believe me never like this  
boy listen im yours one kiss opened the door  
and i need you here's my life  
boy listen im yours one kiss opened the door  
let me love you to the morning light

baby i think ive got a dirty mind  
the things i wanna do  
maybe, maybe you got secrets of your own kind  
you know ive got some too  
im sure youve heard this song a thousand times before  
but never like this

CHORUS

now i know that love can come and love can quickly go  
im not letting go, im not letting go, i wont let you go my love

CHORUS
