

# Rocktopus, The Single

It's all right, it's okay  
Things will never be the same.  
Don't have to turn it upside down  
Don't run your ship into the ground.  
Call me cold, don't bother me  
Look at you down on your knees.  
Don't have to burn your bridges down  
What if you fall down?

Chorus:

The single biggest reason that you left was cuz I pushed you away.  
The single biggest reason that I pushed was cuzs I had no  
Halo upon my head  
Ring upon my finger  
No sense of self and I couldn't tell you that I want you to stay.

Call it fate, call it right on time.  
If I cared, I'd see the light.  
Don't come knocking at my door, I live in hell.

Chorus:

The single biggest reason that you left was cus I pushed you away.  
The single biggest reason that I pushed was 'cos I had no  
Halo upon my head  
Ring upon my finger  
No sense of self and I couldn't tell you that I want you to stay.
