

# Rocky Votolato, Don't Walk Out On Me

I'm gonna start at the beginning  
I'm gonna make something out of nothing  
No I don't know anything about Beethoven  
But I know that you will always haunt me

You have been brought here  
For something so much greater than me  
But it's hard cause I'll get all of the attention  
When you're work is so much more important  
Please don't stop looking at me  
Don't walk out on me

I should be singin'  
To earn my keep by now  
I guess my throat just can't carry the weight  
Listen now you can hear the sound of how  
It's been blown out

Oh A and C  
I know your just an old standby  
But you'll help me tonight to get across all I mean  
Listen now, please don't walk out on me
