

Rod Stewart, Mine For Me

(Paul McCartney)

In a couple of hours I'll be drivin' home to the one I love
So save your breath sweet painted lady it won't be me
Over the mountain and under the sea
They'll never be another one like mine for me

It was only an hour or so ago that I sang my song
Persuaded painted ladies that I could say I'd been free
Over the mountain and under the sea
They'll never be another one like mine for me

Mine is always, mine is grand
Don't you know that the woman that love me she understands
And can't you see that it's mine for me
And in a couple of hours I'll be driving home to the one I love
So save your breath sweet painted lady it won't be me
Over the mountain and under the sea
They'll never be another one like mine for me
You're for me

Mine is always, mine is grand
Don't you know that the woman that love me she understands
And can't you see that it's mine for me
They'll never be another one like mine for me
They'll never be another one like mine for me

They'll never be another one like you for me
