Rodeo Blue, Lost Together

Strange and beautiful are the stars tonight that dance around your head in your eyes I see that perfect world I hope that doesnt sound too weird

I want all the world to know that your love's all I need all that i need

and if we're lost than we are lost together and if we're lost we are lost together

stand before this faceless crowd I wonder why I bother so much control by so few Stumbling from one disaster to another

I've heard it all so many times before It's all a dream to me now A dream to me now

And if we're lost Then we are lost together Yea if we're lost We are lost together

In the silence of this whispered night I listen only to your breath And that second of a shooting star Somehow it all makes sense

And I want all the world to know That your love's all I need All that I need And if we're lost Then we are lost together Yea if we're lost Then we are lost together
