

# Roger Hodgson, Hooked On A Problem

I'm hooked on a problem  
It won't go away  
So many opinions  
I don't know what to say

Can somebody help me  
What they trying to do

Life used to be simple  
Life used to be fun  
Now it's all catchin' up on me  
Tell me what have I done

Can somebody help me  
What they trying to do

Hey don't you ever get lonely  
Hey don't you wish it was easy  
Facing the world on your own

I'm hooked on a problem  
It won't let me go  
The way people look at me  
Feels like twenty below

Can somebody help me  
What they trying to do

I'm walkin' on a tightrope  
With stars in my eyes  
In danger of falling  
Won't you kiss me goodbye

Can somebody help me  
What they trying to do

Hey don't you ever get lonely  
Hey don't you wish it was easy  
Facing the world on your own

If you know the answer  
What I'm tryin' to say  
I need a solution  
Cause I'm wasting away

Can somebody help me  
What they trying to do  
Won't somebody help me  
What they trying to do  
Can somebody help me  
What they trying to do
