

Roger Hodgson, London

I wish I was in London
Walkin' in the rain
I wish I was in London
I really miss the rain
Oh just take me home again

I wish I was in England
I really miss the Queen
I wish I was in England
I really miss the Queen
Oh but is she missing me

What happened to the Empire?
There's nothing in the Bank
They gave away the empire
Without a word of thanks
Oh let's blame it on the Yanks

So give me rule Britannia
Britannia rules the waves
I live in California
But it's really not the same
Oh so take me home again
Please take me home again...
