

# Roger Taylor, Loneliness

(Roger Taylor)

Loneliness... is the greatest curse  
And loneliness... is hell on earth  
They say it's all in the mind  
Well I'm sure that's true  
But knowing isn't a cure  
It don't help me or you  
You don't know what's it's like  
When you're all on your own  
You don't know what it's like  
When you're really alone  
But then it's all in the mind - loneliness?

Loneliness... can be so unkind  
And loneliness... hope you never find it  
They say it's all in the mind  
See how it falls off the tongue  
They say you reap what you sow  
They must be putting us on

Cos you don't know what's it's like  
'til you're all on your own  
No you don't know what it's like  
Until you're alone  
Yeah you don't know what it's like  
Wait 'til you're really alone  
But then it's all in the mind... loneliness - loneliness -  
Loneliness
