

# Roger Tylor, Beautiful Dreams

Beautiful dreams we had at night  
All children have to dream at night  
Eyes closed in sleep of innocence  
Sandman had come to us alright  
Beautiful dreamers - lost in some never-never dream  
Beautiful dreams we had  
Just beautiful dreams  
Beautiful dreams we had alright  
Now we had found the golden key  
Door to a secret world  
Of chemical dreams  
Beautiful dreamers - of beautiful dreams  
Beautiful dreams we had  
Such beautiful dreams  
We'd like to find a cure  
For every known disease  
There's no such thing you say  
The answer's there to see  
Colourful dreams we have at night  
Of nuclear purity  
This is the final twilight  
This is the final cure it seems  
Beautiful dreamers - drifting in never-never dreams  
Beautiful dreams we had  
Such beautiful dreams  
Dreams
