

# Roger Tylor, Happiness

There's just one thing  
That we all crave  
From the cradle  
To the grave  
A state of grace  
Or state of mind  
A point in space  
Or point in time  
In time of peace  
In times of war  
The self same goal  
That we yearn for  
Some have it all  
But still have less  
What we all need is happiness  
Happiness is what you need  
Yeah happiness is all around  
It's not easy to define it  
It can't easily be found  
No it can't easily be found  
It can't easily be found  
You that that it's true  
Cos' happiness  
Just can't be bought  
Such purity more precious still than gold  
And happiness  
Can't just be taught  
When you're young or if you're old  
No matter how - how hard you try  
In your own life, and through your years  
With every up - must come a down  
Enjoy the laughter and the tears  
Of happiness
