

# Roger Tylor, Young Love

With a feeling so sure  
With a feeling so real  
When you know that it's right  
When you know it's for real  
You gotta stick to your guns  
Show the world that you just don't care  
When they're puttou gotta stand on your ground  
Show the world that it's no cheap deal  
This is your time  
This is your life  
This is no cage  
This is your problem  
This is your life  
This is your age  
Starbright-this is your night  
Young love is what you feel  
Young lovers fight  
But young love is right  
When your young love is real  
You've seen it before  
Like your mum and your dad  
They're dying each day  
Living a lie that's so sad  
You gotta stick to your guns  
Grab a chance while your chances come  
If you're frightened of dying  
You ain't really alive  
Everytime that you meet  
You try to kindle the fire  
You gotta stick to your ground  
Show the world that it's no cheap deal  
This is your time.....  
Starbright.....  
Young love is right  
Young love is real  
Young love is what you feel  
Young lovers fight  
But young love is right  
When your young love is real  
Is real  
Real
