

# Roisin Murphy, You Knew

You knew  
You knew  
You knew  
You knew

What you expect me to toe the line for?  
Extra, read all about it  
When you were given fair warning  
Extra, read all about it  
What you expect me to toe the line for?  
Extra, read all about it  
What you expect me to toe the line for?  
You knew exactly what you were buying

Don't come the innocent boy  
Admit that you've got your motives  
You knew exactly what motivates me  
And I believe the record will show this

You knew  
And I think you've always known I have feelings for you that burn  
You knew  
But you just won't go there with me  
And take some sort of responsibility  
Your mere reactions  
I take actions  
You knew  
And I think you've always known I have feelings for you that burn  
You knew  
But you just won't go there with me  
And take some sort of responsibility  
Your mere reactions  
I take actions

What you expect me to toe the line for?
