

Rollergirl, Close To You

I wanna get close to you
I wanna get next to you
Never felt the way
I feel for you
And thats when I get close to you
I never feeling blue
When I get close to you
Never in my dream
Or in between
Your the only one I need
Close to you
I wanna get close to you
In my heart
The fire is burnning
More that I can say
To whom it might concern
Never go away
Never go away
Never go away
Never go away
Never go away
I wanna get close to you
I wanna get next to you
Never felt the way
I feel for you
And thats when I get close to you
I never feeling blue
When I get close to you
Never in my dream
Or in between
Your the only one I need
Close to you
I wanna get close to you
When passion moves again
I feel the love inside
I feel the tears and pain
There no more need to hide
Never go away
Never go away
Never go away
Never go away
Never go away
I wanna get close to you
I wanna get next to you
Never felt the way
I feel for you
And thats when I get close to you
I never feeling blue
When I get close to you
Never in my dream
Or in between
Your the only one I need
Never felt the way
I feel for you
And thats when I get close to you
I never feeling blue
When I get close to you
Never in my dream
Or in between
Your the only one I need.
Close to you
To you
To you.
