

# Rolling Stones, Moon Is Up

(M. Jagger/K. Richards)

Moon is up  
The sun is down  
You can't have it both ways round  
Ooh babe, won't you listen to me  
We are worlds apart, you see  
Where are you now  
Crying out loud  
Where did you go  
When I needed you  
The sun sinks behind the clouds  
And hides his tears without a sound  
The moon looks on reflectively  
So spare a thought for you and me  
Where are you now  
Dark are the clouds  
Where did you go  
When I needed you  
The moon is up  
The sky is black  
I'll sail away and won't come back  
The sun goes down  
The stars will rise  
And dance across  
The darkened skies  
The sun goes down  
The moon comes up  
The moon is up  
The sun goes down  
And you can't have it both ways round  
So come on baby and listen to me  
'Cause we are worlds apart, you see  
The sun goes down  
The moon comes up
