

# Rolling Stones, This Place Is Empty

Walk right in  
Sit on down  
And make  
To your set off  
At home  
Come on baby  
You're just like I need  
And you're hate  
To be  
Alone

Is funny how things go around  
Is crazy  
But it's true

This place is empty  
Oh so empty  
Is empty without you

Come on  
Bear your breath  
And make me  
Feel  
At home  
You and me we're just like  
All the rest  
And we don't  
Wanna be  
Alone

Is funny how things go around  
But go around they do

This place is empty  
Empty  
So empty without you

Yeah  
This place is empty  
Empty  
So empty without you

Oh yeah  
Mm mm

Is empty without you  
Mmm mmm

Come on  
Simmer down  
And treat me  
Sweet and cold  
At least by now you  
You have learnt  
How  
To plough  
A fool

Is funny how dream turn around  
Is crazy  
But it's true

This place is empty  
So empty

So empty without you

This place is empty  
Oh so empty  
So empty without you
