

# Rolling Stones, Tops

(M. Jagger/K. Richards)

Hey baby  
Every man is the same come on  
I'll make you a star  
I'll take you a million miles from all this  
Put you on a pedestal  
Come on, come on  
Have you ever heard those opening lines  
You should leave this small town way behind  
I'll be your partner  
Show you the steps  
With me behind your tasting of the sweet wine of success  
Cause I'll take you to the top, baby  
Hey baby  
I'll take you to the top  
Step on the ladder  
Toe in the pool  
You're such a natural you don't need no acting school  
Don't need no casting couch  
Or be a star in bed  
Never, never, never let success go to you pretty head  
Cause I'll take you to the top, baby  
I swear we'll never going to stop, baby  
I'll take you to the top  
Don't let the world pass you by  
You better take your chance now baby  
Or be sorry for the rest of your sweet loving life, baby  
Oh, sugar  
Hey sugar, I'll take you to the top  
I'll take you to the top  
I'll take you to the top, sugar
