

Ron Sexsmith, April After All

It's really coming down
Raining cats and hounds
It's falling on parades
And on the plans we made

But there'll be other days
And things will turn our way
The rain has got to fall
It's April after all

Even the longest night
Will lead you to daylight
It's the way May leads to June
And it's how I've come to you

The world goes spinning round
Life goes up and down
And rain is bound to fall
It's April after all

They'll be other days
Darling come what may
The rain has got to fall
It's April after all

Tears are bound to fall
It's April after all
