

Ron Sexsmith, How On Earth

Dreams come true in Heaven
All the time
Baby how on earth

She takes my hand
And I feel like I am home
She understands if I need to be alone
When I am down and can't go on
She fills my heart with song

We see it in the movies all the time
Baby how on earth
Did we stumble upon this storyline
Baby how on earth
Did we pull it off
So green
So unrehearsed
Baby how on earth

When she is sad
There is so much hope inside
When she is glad all the tears flow to her eyes
When I'm away I think of her
To a dream my mind wanders

Dreams come true in Heaven all the time
Baby how on earth
Did we happen upon this love divine
Baby how on earth
Did we find us
Down here where people get hurt
Baby how on earth

Yes how on earth did we ever find us
We thought tomorrow was behind us
So glad to be wrong
She fills my heart with song

We see it in the movies all the time
Baby how on earth
Did we stumble upon this storyline
Baby how on earth

Dreams come true in Heaven all the time
Baby how on earth
Did we happen upon this love divine
Baby how on earth
Did we find us
Down here where people get hurt
Baby how on earth
