

Ron Sexsmith, Reason For Our Love

Caught in the middle
Of a daydream of you
Were lost in this riddle
Where they keep the answers up above

Theres reason for our love
Theres reason for our love

Thought life held nothing
Now Im holding your hand
My heart always wondering
When all at once it understands

Theres reason for our love
Theres reason for our love

Everybody seems so surprised
Though it has been right before our eyes
All the time

And while we were talking
Time has flown so it seems
That you were sleepwalking
Through that very same dream and back to us

Theres reason for our love
Theres reason for our love

Though the answer lies above
Theres a reason for our love
