

# Ron Sexsmith, Seem To Recall

Well a bad day is when Im up in the air  
A better day is when Im in repair  
Like this its always been  
Oh but then again  
I seem to recall a time when

The day ahead was an open book  
For every page I read, a second look  
What I knew then somehow  
Cant put my finger on it now  
But I seem to recall doing without

I seem to recall when a daydream  
Seemed to be all Id take with me  
My wherewithal  
I seemed to recall

Now were bummin round feeling awkwardly at home  
Amidst the dumming down and the talk shows  
With nothing much to say  
It wasnt always this way  
I seem to recall a brighter day

I seem to recall when your light  
Seemed to be all Id go by  
After nightfall  
I seem to recall

What I knew then somehow  
Ive put my finger on it now  
I seem to recall that there was no doubt

I seem to recall when your love  
Seemed to be all I was so sure of  
It could break my fall  
I seem to recall

My wherewithal  
I seem to recall
