

# Ron Sexsmith, Several Miles

Several miles have come between  
All for the best it seems  
and just in case you're listening  
To this song, I will make it  
clear that I still love you

Whatever happened, it don't need to be second guessed  
We move from one home to a new address  
Oh it's just miles, miles behind us  
Miles to go, miles behind us

Several miles have come to pass  
The smoke has cleared at last  
Into our lives we disappear  
&#039;Til it's just a song that you sometimes  
hear as you're passing through

Whatever happened, it don't need to be second guessed  
We move from one home to a new address  
Oh it's just miles, miles behind us  
Miles to go, miles behind us

I'm listening too  
Oh it's just miles, miles behind us  
Miles to go, miles behind us  
Oh it's just miles...

Several miles have come between  
All for the best it seems, and just in case  
you're listening  
I'm listening too
