

Ron Sexsmith, These Days

Promises are made to be broken haven't you heard
You said he'd never break your heart now haven't you learned
You believed in the words and all that they meant
Whoaw, but love is not some popular song filled with empty sentiment

That's what passes for love
That's what passes for love these days
Oh these days

And it won't take a miracle darling just keep it real
This world can make us cynical darling I know how it feels
You took it too hard to set on the screen
Oh but love is not displaying a part into very scripted scenes.

That's what passes for love
That's what passes for love
That's what passes for love these days

No one can complete you or make you whole
Well love will come to greet you half way
But the streets are never paved with gold

Promises are made to be broken haven't you heard.
You said he'd never break your heart now haven't you learned
You believed in the words and all that they meant
Whoaw but love is not some popular song filled with empty sentiment

That's what passes for love
That's what passes for love
That's what passes for love these days
Oh these days

These days

That's what passes for love.
