

# Ron Sexsmith, Tree Lined Street

So nice living on  
A tree lined street  
It's so beautiful all year round  
In the summer  
When the leaves are green  
In the fall  
With all the leaves  
On the ground  
And like the season  
We must be going  
Destination unknown  
It's so fine walking down  
My favorite street  
You know the one  
With all the little buildings  
In the winter  
With the snow and the sleet  
In the springtime  
With all the little children  
To see them playing  
To watch them growin';  
Destination unknown  
This may be the last time  
We ever see this place  
This may be the last time  
We ever see their faces  
Take a good look around you
