

# Ronan Keating, My One Thing That's Real

I hope you feel  
The same way I feel  
My one thing that's real  
And I pray your mine  
To the end of time  
Thank god you're alive

In this world of pain  
You've never changed  
You're sun through the rain  
And world look at us  
We've got an everlasting love  
And I know there's a god above  
Because he sent you

This is our life there's no time to fight  
You're my guiding light  
And world look at us  
We've got an everlasting love  
And I know there's a god above  
Because he sent you

And I hope you feel  
The same way I feel  
My one thing that's real
