

# Ronan Keating, You're Picking Me Up

You're picking me up girl (x2)

What hell? Because of you (x2)

Your picking me up because I had such a bad day  
Life throws at you crap in so many ways  
Was so mad till you came my way  
Ya fall down they'll walk right over you  
So get up get on you gotta fight through  
Fat farm skinny school we've lost the plot  
And it hurts to see the truth when we see it  
So lets all get smashed coz no one cares

Chorus

Your picking me up coz I had such a hard night  
Why does life feel like a fist fight  
And big brothers proved that were losing our soul  
Its all about what you've got on you  
So get up get on you got fight through  
And it hurts to see the truth if we feel it  
So lets all get trashed coz no one cares

Chorus

I'm gonna call my boss at midnight  
Were gonna quit our jobs tonight  
We wont fool ourselves no more girl  
Its time to change for the right  
Come on we'll party on through the night night night

Chorus

In a world of pressure were lives come last  
Technology got us moving so fast  
But your picking me up girl how do you do it  
Thank Christ for you  
I turn on CNN and see sub African genocide  
I look for you and your right by my side  
Your picking me up girl how do you do it  
Thank Christ for you  
I drove 10 thousand miles to jump off Niagara  
And came back up coz your my viagra  
Your picking girl how do you it thank Christ for you
