

# Ronnie Milsap, One Night

Call me a fool, send me away  
I've got to say it's you I adore  
Alone and in love, fallin' apart  
I followed my heart straight to your door.

Face to face, with all honesty  
I would be grateful if you'd give to me  
One night, to lay in your arms  
One night, could it be that I was born  
To make every dream you ever had come true  
Woh-oh, in one night  
Oh, one night with you.

Standin' this close, the sound of your voice  
Leaves me no choice, I offer my love  
Am I so wrong to think you might fall  
'Cause baby you're all I can think of.

Face to face, with all honesty  
I would be grateful if you'd give to me  
Just one night, to lay in your arms  
One night, could it be that I was born  
To make every dream you ever had come true  
Woh-oh, in one night  
Oh, one night with you.

One night, to lay in your arms  
One night, could it be that I was born  
For one night (one night)  
To lay, to lay in your arms  
One night (one night)  
Could it be that I was born  
For one night (one night)  
I need one night (one night)  
One night (one night)  
To lay, to lay in your arms  
One night (one night)  
Could it be that I was born  
For one night (one night)  
Oh, give me one night  
(One night, please, please, one night)...
