Room 2012, Put'em up

Put em up
Youre surrounded
Wind it up
Turn around it
Dont leave me hanging
Dont leave my love on the line
This heart is breaking
Its beating 4/4 a time
And the melody cries
Chorus:
Put em up
Give it out
Youre surrounded
Wind it up
Put it out
Turn around it
Explore me, baby
You never know what youll find
Dont keep me waiting
This pause is killing my mind
And the melody cries
Chorus
This is a story about a girl in a dream
She was spinning and shouting
I dont know what the hell it means
On and on and on, the needle and the record
On and on and on, floating like a feather
On and on and on, dancing with the weather
On and on and on, the needle and the record
On and on and on, floating like a feather
On and on and on, dancing with the weather
Chorus 3x
