

# Room 94, Rewind

I push rewind  
I push rewind  
I push rewind

I'm thinking back to when we first met  
you had a a look in your eye  
that said I'm better off dead  
and everytime I get close to you  
you go and push me away  
like you always do

cause everyone thinks  
they've got something on me  
something on me  
cause everyone thinks  
they've got something on me

so fall down if you do I'll never catch you  
leave town I'll pretend I never met you that day  
I wish I could go back in time  
I would never ever make you mine

I push rewind  
I push rewind

I should've known you were messing me up  
I try to call your phone but you never pick up  
people say you are too good to be true  
but I'll never give up I'll go and join the queue

cause everyone thinks  
they've got something on me  
something on me  
cause everyone thinks  
they've got something on me

so fall down if you do I'll never catch you  
leave town I'll pretend I never met you that day  
I wish I could go back in time  
I would never ever make you mine

I push rewind

I'll save your ever after  
and see you when you crawl back crying  
I push rewind  
remember all the laughter  
erase your tapes within my mind  
there'll be no more you

so fall down if you do I'll never catch you  
leave town I'll pretend I never met you that day  
I wish I could go back in time  
I would never ever make you mine

so fall down if you do I'll never catch you  
leave town I'll pretend I never met you that day  
I wish I could go back in time  
I would never ever make you mine

I push rewind  
I wish I could go back in time  
I would never ever make you mine  
I push rewind
