

Room 94, You Got It Wrong

Na na na na naaaaa
Na na na na na na naa na

I don't normally break the rules
but it feels like something's in the air tonight
I don't normally play the fool
I'm like a deer in your headlights
got hit with an arrow I don't think I'll survive
get up, man up start feeling alive
I can't explain what i'm feeling
I can't stop you from leaving

Tell me what to say to you
Just tell me what you want me to do
I think you got it wrong i'm not the one, I'm not the one
Tell me what to say
Do you want me that way?

I started drinking
to hide my feelings
I took a shot, got shot down
now i'm sleeping on the ground
got hit with an arrow i don't think I'll survive
get up, man up start feeling alive
I can't explain what I'm feeling
I can't stop you from leaving

Tell me what to say to you
Just tell me what you want me to do
I think you got it wrong I'm not the one, I'm not the one
Tell me what to say
Do you want me that way?

lets take a step back
forget I said that

Tell me what to say to you
Just tell me what you want me to do
I think you got it wrong I'm not the one, I'm not the one
Tell me what to say
Do you want me that way?
