

Rooney, For Love

you are falling for me
and the love you have
is reformed in me
i forget to tell you
how much you mean to me
but you never change
no you never change
we drive and drive and drive but never get anywhere
we talk and talk and talk it's not fair
you have to believe you have to
you have to believe you have to
cause what i feel is right for us
it is right for us
it is right for love
