

Rooney, Never Be Forever

How did you know
Wherever I was
I wasn't thinking about you?
Well, I can't explain
Why I have changed
It's not the smoke
That, or your perfume
Can you quit what you started in the past?
'Cause you know it isn't real
Well, nothing is real
Did you ever really think we had a shot?
'Cause I knew we could never be forever
You made me feel in total control
Of the way that I felt about you
But how could I know that I would be wrong?
I thought that we'd last 'til the end
