

# Rooney, Never Be Forever

How did you know  
Wherever I was  
I wasn't thinking about you?  
Well, I can't explain  
Why I have changed  
It's not the smoke  
That, or your perfume  
Can you quit what you started in the past?  
'Cause you know it isn't real  
Well, nothing is real  
Did you ever really think we had a shot?  
'Cause I knew we could never be forever  
You made me feel in total control  
Of the way that I felt about you  
But how could I know that I would be wrong?  
I thought that we'd last 'til the end
