

Rooney, Shut Me Out

I try and clear my mind of you
You're wasting all my days
But I don't know just what to do
Without you in my way
I've spent all year avoiding
Everything else, they don't matter
I try and get as close as I can
But now I have been shattered
Shut me out and I'll scream and shout
I can't be alone
Say goodbye and I want to die
Don't leave me alone (alone, all alone)
I think about you constantly
I don't have a choice
But when I just want to relax
I need to hear your voice
