

Rose Maddox, Down, Down, Down

I'm goin' down down down goin' down down down got nobody to love me now
I'm sorrow bound bound bound since you've left be found
Since you've left I'm goin' down down down

I never thought my life would be so lonely
I never thought my head would hang so low
I love you my darling and you only
Don't know where you are but that's where I'd like to go
I'm goin' down down down...

[banjo]

Quarrels so many was your reason could it be you never gave us time
In your heart you desire a new one if so then your love don't fit with mine
I'm goin' down down down...

[steel]

I'm goin' down down down...
Since you've left I'm goin' down down down
