

Rose Maddox, If You See My Baby

If you see my baby while making your rounds
In some crowded night spot or cafe in town
Tell him I miss him and that I'm still around
If you see my baby in this lonesome old town
Ask him to call me when he's all alone cause I'm always waiting by my telephone
I'd still worship the ground where he walks around
If you see my baby in this lonesome old town
[guitar]
Ask him to call me...
