

Rose Maddox, Johnny's Last Kiss

Johnny's last kiss when he sailed away I remember it well twas just like today
The months were so long but I'd prayed each night
For his great return when things would be right
Johnny's last kiss I remember it well

[guitar]

Then his letter came saying goodbye I read through a mist with tears in my eyes
The plans that we made were secret to me all of those plans were never to be
Johnny's last kiss I remember it well

[steel]

I'll try to forget the way that he lied I'll try to forget the nights that I cried
Johnny's last kiss I remember it well oh Johnny's last kiss I remember it well
