

# Roxette, After All

Now it's about time I wrote you a letter  
Hey baby, it's me for worse or for better  
Got nothing to waste in pace for another lane  
Now loss, only gain  
I know all we had has dried like a desert  
Stands from the sand are still on my T-shirt  
And I crave a drink of heavenly cool cool rain

And after all you were the greatest  
After all I did my best  
There is nothing to regret, big or small  
After all, there wasn't a loophole  
We were bound to take the fall  
Life goes on and on and on after all

Now it's about time I settled all the story  
You slept in too late and missed all the glory  
Got stuck in a dream t  
That finally blurred your brain  
I try to stay same

Hey love is a blind It pops out the window  
But no one will find teardrops on my pillow  
As I race the glass of heavenly cool champagne

Cos after all you were the greatest  
After all I did my best  
There is nothing to regret  
Large or small, oh no  
After all we peep thru any keyhole  
And you'll see we were bound to fall  
But life goes on and on and on after all  
Life goes on and on and on after all, after all  
Yea, life goes on and on after all
