

Roy Drusky, It's Only Love

If I don't act myself when I'm around you and I bring up things you used to say
Well I haven't learned to forget like you do but it's only love it will go away
And if I call at night when you're sleeping just to talk about yesterday
Then before I hang up I start weeping well it's only love it will go away
It's only love it will go away at least that's what you say
Yours did and mine will oh some day cause it's only love it will go away
