

# Roy Drusky, Memphis Morning

This very night the train was right on time  
Baby stepped aboard and left the both of us behind  
Well you've gotta make your day and I've gotta make my way  
Somehow someway from here and you Memphis morning  
She's to me what sunshine is to you her train cross the river flyin' now what will I do  
Like sunshine helps make your day she helped in her own way  
Without sunshine flowers waste away Memphis morning  
Oh Memphis morning you're not so pretty anymore  
Raise your bridges start your whistles blowing  
I don't know what I'm hanging round for Memphis morning  
Now you hold too many memories  
Best thing I can do is leave you with 'em without me  
Well if I come back this way now I'll try to plan my day  
So you won't see me passin' through Memphis morning  
Oh Memphis morning oh Memphis morning oh Memphis morning
