

Roy Drusky, True And Lasting Kind

(Our love is the true and lasting king)

I walk the line because you make me want to

Because you're mine there's a lot of things that I don't do

And it makes me proud to tell someone you're mine

For our love is the true and lasting kind

I've searched for ways to tell you that I love you

And make you know that no one stands above you

It's the thought of you that gets me home on time

For our love is the true and lasting kind

It scares me sometimes when I stop to wonder

What would I do without you by my side

I could never fill the space you leave behind

For our love is the true and lasting kind for our love is the true and lasting kind
