

Roy Drusky, Your Little Deeds

It's your little deeds of kindness and your little words of love
It's all the many little things you do
It's your little deeds of kindness and your little words of love
That makes me wanna keep on loving you

Happiness I found is just a thing called love
And the love I found is just a thing called you
Cause loving is a thing that I see plenty of
In the little deeds of kindness that you do
It's your little deeds of kindness...

The only thing that's brighter in my morning sun
Is every morning's early thought of you
And as I count my blessings over one by one
I count the deeds of kindness that you do
It's your little deeds of kindness...
It's your little deeds of kindness...
