

# Roy Orbison, California Blue

(Roy Orbison/Jeff Lynne/Tom Petty)

Working all day  
And the sun don't shine  
Trying to get by  
And I'm just killin' time  
I feel the rain  
Fall the whole night through  
Far away from you  
California Blue

[Chorus:]  
California Blue  
Dreaming all alone  
Nothing else to do  
California Blue  
Everyday I pray  
I'll be on my way  
Saving love for you  
California Blue

One sunny day  
I'll get back again  
Somehow, someday  
But I don't know when  
California Blue  
California Blue

Living my life  
With you on my mind  
Thinking of things  
That I left far behind  
It's been so long  
Doing all I can do  
To get back to you  
California Blue

[Chorus]

One sunny day  
I'll get back again  
Somehow, someday  
But I don't know when  
California Blue  
California Blue  
Still missing you  
California Blue  
Still missing you  
California Blue  
Still missing you  
California Blue
